

Alkutex[®] STRIPPING CLEANER

Article No. 8675

Property profile:

Mild alkaline, foam-inhibited surface cleaner

Specifications:

pH value : approx 10.0
Density : approx. 1.01 g/m³

Range of use:

Used for removing stubborn stain, nicotine, old layers of wax, care agent films, oils, fluosilicate on ceramic floors, marble, natural stone, artificial stone slabs. The cleaner can be used manually or in conjunction with a water vacuum cleaner or automatic cleaning machines.

Directions:

To remove dirt films: Thin Alkutex[®] Stripping Cleaner to a maximum of 1:10 with water. For heavy soiling, use the cleaner undiluted. Distribute the solution evenly and allow to act for at least 5 to 10 minutes but do not allow to dry. Then scrub with a brush and take up the dissolved dirt with a rag or water vacuum cleaner. Rinse several times with clean water, otherwise the subsequently applied care film will not adhere well. Use undiluted or dilute up to 1:100. Clean with a brush, rag or sponge. Allow to act but do not allow to dry and rinse off thoroughly.

Notes:

Pre-testing is recommended. Because of the strong de-greasing effect, wear protective gloves.

Packaging and Storage:

Packaging: plastic canisters 10 l

Shelf-life: At least 12 months in unopened, original containers

Safety, ecology, disposal:

Further information concerning safety during transport, storage and handling as well as for disposal is found in the latest Safety Data Sheet.
